

Keep the Hopper Full - - By Halleck

GASOLINELESS DAY
SAVINGS FEED WHOLE
ARMY FOR 48 HOURS

Sunday Abstinence of Autoists Means
2,800,000 Hand Grenades
for Pershing.

When the American people locked
up their automobiles for a gasless Sun-
day on Sept. 1 they saved enough
money to purchase Gen. Pershing's
army with 5,000 machine guns casting
\$200 each.

They saved enough money to buy
food for the American Expeditionary
Forces in Europe for two whole days.
They saved enough money to pro-
vide Gen. Pershing's army with 2,800,
000 hand grenades.

They saved enough money to pay
for 35,784 completely equipped rifles
of the type the American infantryman
carries when he goes into conflict.

A Big Saving.

These figures were revealed in a
Treasury statement, issued recently,
appealing to the American public to
turn its savings from abstinence into
War Savings Stamps or set them aside
for investment in Liberty Bonds. The
Treasury statement reminded the pub-
lic that these savings which are being
effected are of no value to the govern-
ment in its prosecution of the war
unless they are made available for
its use.

The Fuel Administration reported
that the saving of gasoline on the sec-
ond gasless Sunday amounted to
5,000,000 gallons, which, valued at 25
cents a gallon, meant a saving to
American pocketbooks of \$1,250,000.
In transportation alone this meant a
saving of 625 tank cars for an average
haul of 200 miles.

The rubber saved by giving tires a
day's rest would be sufficient to equip
3,500 motor trucks for the American
army with tires capable of running
5,000 miles.

SMALL BONDHOLDER
MISSES POINT AS TO
VIRTUAL TAX ESCAPE

Investor Should Realize All Issues He
Owns Are Practically Free
From Taxation.

Financiers studying the market con-
ditions with regard in particular to
Liberty Bond figures find that a great
many of the bond transactions are in-
itiated by persons who do not under-
stand the statutes which safeguard the
various issues of bonds.

For instance, small holders have
been selling their 4 and 4 1/2 per cent
bonds in order to buy the 3 1/2 per cent
bonds of the second or third issues.
The 3 1/2s are completely exempt from tax.
As a matter of fact, for the small in-
vestor the 4s and 4 1/2s carry the same
freedom from taxation, practically. No
tax now in existence or later to be
levied can affect the 4s and 4 1/2s un-
less the holder owns \$5,000 worth or
more.

Well Street Opinion.

Hence, the great majority of the
small investors pay no tax on the
bonds of the second or third issues.
The Wall Street Journal recently said:
"More to be deplored is the general
lack of appreciation of the ultimate
value of the Liberty Bond, no matter
of what description. All the econo-
mies of war and finance point to govern-
ment bonds as the most far-sighted
and soundest investment a person can
make during these times. Investing
in government bonds now is buying
with cheap money a call on dear
money in the future."

DO VAST BORROWINGS
OF U. S. TO WIN WAR
CAUSE YOU WORRY?

Think of the Many Opportunities for
Investment Which the War
Loans Offer.

The vast borrowings of the govern-
ment made necessary by the war have
startled a good many patriotic but
short-sighted people. Inevitably,
perhaps, they feel that an exacting de-
mand is being made on everybody and
they grow uneasy and restless.

Private and public expenditures are
being curbed right and left so that the
government may have more and more
money.

But the money is staying right here
in this country. And the great gov-
ernment war issues afford excellent
investment opportunities to the busi-
ness man. He can loan his capital to
the government at 4 1/4 per cent inter-
est, a rate which after the war will
make a security of such safety gilt-
edged, and he can get his capital back
at a time when its purchasing power
will be greatly increased.

Financiers Study Situation.

"No doubt these factors will be ap-
preciated in time and the bonds will
ultimately find their proper market
levels," says the Wall Street Journal.
That financial journal goes on to say
that the under-par prices quoted dur-
ing the summer on some of the issues
reflect only a temporary condition. It
says further that every effort is being
made and will be made by the Secre-
tary of the Treasury to see that all
legislation which has to do with money
will work out to the benefit of the
bondholder.

Financiers who have studied the
loan sales, which have been compara-
tively few, report that a large number
of the transactions are started by mis-
informed holders of small amounts of
bonds who do not understand the tax
statutes.

"A great many small investors in
the 4 and 4 1/2 per cent bonds," says the
Wall Street Journal, "do not seem to
realize that their securities for the most
part possess the same merits as
the tax free 3 1/2 per cent bonds of the
first issue. The 4s and 4 1/2s are fully
as free from the normal income tax as
the 3 1/2s and no surtax or excess prof-
its tax now effective or later to be
enacted will be collectible on 4s and
4 1/2s unless the owner has more than
\$5,000 worth."

BOND BUYERS ONE OUT OF SIX

This Was Record for Entire Popula-
tion in Third Liberty Loan.

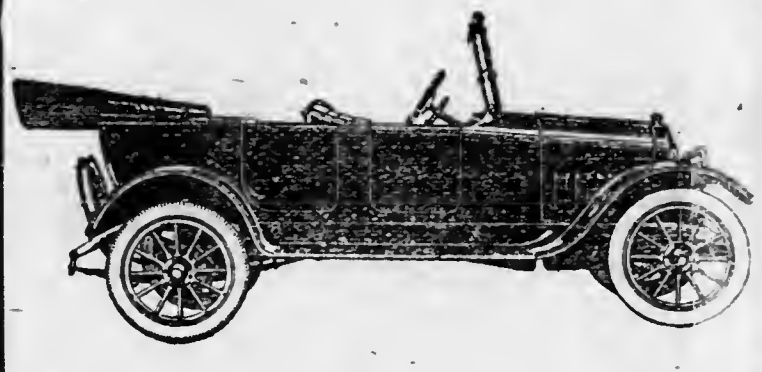

One out of every six persons in
the United States bought Liberty
bonds of the third loan last April and
May. The exact number of subscrib-
ers was 18,308,325, or 17.7 per cent of
the estimated population.

New York State led in the volume
of subscription. Delaware subscribed
the highest percentage of the assign-
ed quota, and the City of Washington
furnished the largest proportion of
its population as bond buyers.

This was disclosed in a Treasury
report of the third loan subscription
by Federal Reserve Districts, States
and principal cities. The loan total,
\$4,176,516,550, represents an aggregate
oversubscription of 133 per cent of
the \$3,090,000,000 goal.

In volume of subscription the five
leading States were New York, with
\$365,000,000, or nearly one-fourth of
the nation's total; Pennsylvania, \$467,
000,000; Illinois, \$279,000,000; Massa-
chusetts, \$228,000,000, and Ohio, \$225,
000,000.

GREEN-FORD AUTO CO
Agents Greenville, Ky.

You know, of course, that the Maxwell Motor Car is the long distance champion of the world.

You have read that a "stock" Maxwell 5-passenger car ran for 44 days and nights without stopping the motor.

And that, in the 44 days non-stop test, the Maxwell covered 22,022 miles, at an average speed of 25 miles per hour.

But have you, up to now, realized the full significance of that performance?

Do you know that no other motor car in the world has ever equalled or even approached that performance?

In a word, did you take this test seriously when you heard of it?

Or did you set it down as a "selling stunt" to give the publicity man something to talk about?

It's worth your while to read and to study the conditions under which that test was made.

You know that the American Automobile Association (familiarily known as the "A.A.A.") is the official arbiter of every automobile test and contest.

But perhaps you didn't know that when a maker places his product under A.A.A. supervision he must do absolutely as told and abide by the decisions of the Board.

That's why there are so few A.A.A. Official Records!

This 22,000-mile Maxwell non-stop test was official from start to finish.

Therein lies its value to you.

It proves absolutely the quality of the car—of the very Maxwell you buy.

For verily this was a "stock" Maxwell. Listen:—

First: the inspectors disassembled the motor to see that no special pistons, valves, bearing-metal or other parts had been used.

Every other unit was as critically inspected. Then the car was re-assembled under their own supervision.

As we had much at stake and the test was made in winter (November 23 to January 5) we asked permission to take certain little precautions against accidental stoppage.

Sounds reasonable, doesn't it?

But they refused permission to do any such thing.

For example:—They would not permit a rubber cover over the magneto—it wasn't "stock."

They refused to let us tape the ignition wire terminals—they are not taped on the Maxwells we sell—so of course it wasn't "stock."

Neither would they let us use a spiral coiled pipe in place of the usual straight one from tank to carburetor to guard against a breakage from the constant, unremitting vibration—it isn't "stock."

Nor to use a special high priced foreign make of spark plug—the run was made on the same spark plugs with which all Maxwells are equipped.

So rigid were the rules, we were unable to carry a spare tire on the rear—it wasn't "stock." A telegram to headquarters in New York finally brought a special permit to carry a spare tire.

"It isn't stock!" "It isn't stock!"

That was the laconic reply of those A.A.A. inspectors to every last suggestion that called for anything but the precise condition of the standard, stock model Maxwell that any customer can buy from any one of 3000 dealers anywhere.

We are glad now—mighty glad—that the rules were so strict and so rigidly enforced.

Any other car that ever attempts to equal that record must do it under official supervision—and comply with the same terms.

And it will have to go some.

For Maxwell set the standard when it performed this wonderful feat.

Maxwell complied with those rules—and made good.

Every drop of gasoline and oil and water was measured out and poured in by the inspectors themselves. They would not even let our man pour it in!

Every four hours the car had to report at the official station for checking.

And it had to be there on the minute.

And every minute there was an inspector beside the driver on the front seat—two more men in the rear. One got out only to let another in—day and night for 44 days and nights!

There was one technical stop.

It is interesting to know the circumstances.

Dead of night—a driving storm—a cloudburst—suddenly another car appeared in the road ahead.

In his effort to avoid a collision the Maxwell driver stalled his motor.

At least the observers thought it stopped and so reported.

The car did not stop, however, so its momentum again started the motor (if it had indeed stalled) when the clutch was let in.

The contest board exonerated our driver on grounds that his action was necessary to save life.

That shows you how rigid were the rules—how conscientiously applied by the observers.

You who have owned and driven motor cars—you who know how small a thing may clog a carburetor or a feed pipe; "short" a spark or stall a motor—will realize what a wonderfully well made car this must be to go through that test under those conditions—44 days—22,022 miles without stopping.

The exact amount of gasoline, of oil, of water used; the tire mileage, tire troubles, tire changes; the distance and the routes are matters of official record, attested under oath and guaranteed by the A. A. A.

(By the way, the average was nearly 10,000 miles per tire.)

Any Maxwell owner—or anyone interested may see those records.

And—here's the most wonderful part—though no attempt was or could be made for economy; the Maxwell averaged 22 miles per gallon of gasoline.

Some other car may, some time, equal some one of those performances. But to equal them all in the same test—that car must be a Maxwell.

For example:—They would not permit a rubber cover over the magneto—it wasn't "stock."

They refused to let us tape the ignition wire terminals—they are not taped on the Maxwells we sell—so of course it wasn't "stock."

Neither would they let us use a spiral coiled pipe in place of the usual straight one from tank to carburetor to guard against a breakage from the constant, unremitting vibration—it isn't "stock."

Nor to use a special high priced foreign make of spark plug—the run was made on the same spark plugs with which all Maxwells are equipped.

Entered at the Greenville, Ky., postoffice as second-class matter.

"We Must Make Sacrifices in order to win the war."
—WOODROW WILSON.

NEEDLES are so scarce that housewives may soon be unable to darn anything but the kaiser.

ONE of the absolute necessities of life—a free, happy and prosperous life—is a liberty bond.

IS Spain paying off an old grudge by supplying Germany the flu germ which she is shipping out?

GERMAN militarists are not so fond of "good" when it is their own and "iron" when it is their foe's.

THESE are extremely busy days for in addition to our duties, we should occasionally buy another bond.

THERE are very few persons who fail to buy bonds who should ever again say a word about being a patriot.

ANY person who can buy a liberty bond adds not do so in this emergency is entitled to the kaiser's iron cross.

GERMANY would dearly love a truce and if it could deceive the allies into granting one it would use the time thus gained to strengthen its military machine.

ACCORDING to reports, the new German chancellor is a "human being." Doubtless there are many others in that insular realm. The time has surely arrived when they should make their influence felt.

Two men were talking, about the war, naturally, when one of them declared: "Well, it is all over but the shooting," to which the other quickly made response: "You mean it is all over but the fighting. Why our men have just begun to fight!" And the latter man showed that he was not only a patriot, but that he had a proper sense of condition as they really exist.

Roark can supply you with asbestos table mats for any size table, square or round.

The Kaiser "offers" us peace, but we want none of his brand.

By order of the State Board of health, public gatherings of all kinds are forbidden in Kentucky until the flu situation improves. Schools, churches, theatres, public meeting of all kinds have ceased.

Pointed Paragraphs.

Faith and hope may die but charity is immortal.
The more a wise man thinks the less he is apt to talk.

Political genius is often but an uncommon degree of imagination.

If you are unable to hold your temper get a strong man to hold you.
Says a rural editor, "Money is close—but not quite close enough for us to reach it."

Good resolutions and ladies who faint in crowded street cars should always be carried out.

An artist's wife never admires his work so much as when he is drawing a check for her.

Women were made a little in advance of nations and have managed to keep in front of them ever since.

There are times when a man expresses the same idea by wagging his head the dog does by wagging his tail.

There is not a talking machine made which will not play Victor records, and Roark has a great supply.

FARMERS COMING BACK AS HIGHEST BOND PURCHASERS

ORGANIZATIONS IN LINE TO REPEAT RECORD OF THIRD LOAN DRIVE.

GRANGES ARE KEPT INTACT

Agriculturists Have Figured Out Just How Much Their Neighbors Should Invest.

St. Louis, Sept. 10.—Figures compiled from the reports of the three preceding loans by experts here show that in the Third Liberty Loan, subscribed last spring, the farming communities were the strongest supporters of the drive. Forecasts of the coming loan, as prepared by farm club officials, bankers in touch with the rural communities and officers of the various farm leagues, indicate that the farmers are again going over the top.

Admitting that the corn crop has suffered material damage in Missouri, Southern Illinois and Kansas, the general opinion is that the farmer has made up his mind that he will take all of the Fourth Liberty Loan that he can afford and more.

He clearly understands that in order to win this war the loan must be subscribed, and he also sees just as clearly that the farmer must do his part in raising that money, that the merchant and the professional man, the day laborer and the mill hand of the cities, the factory owners and the employing classes in general cannot take care of the loan without the help of the millions of farmers.

Third Loan Records.
The carefully compiled reports of the Third Liberty Loan show that the farmers got into the game, organized themselves as carefully and as thoroughly as the city population and then went out and got the money. Since that time they have perfected their organizations in carrying on the War Savings Stamp sales. These organizations have been kept together and were in readiness to be used when the Fourth Liberty Loan drive opened, Sept. 28.

In farm clubs and granges, farmers' leagues and societies of equity, the question is already being discussed: "How much can we put into the Fourth Loan?" This is the way one farm journal, The Gleaner, puts it: "It is your duty to take stock right now. How much can you invest in Fourth Liberty Loan Bonds? Possibly you have a mortgage on your farm. This should not interfere with your buying bonds. Let the mortgage run; buy bonds. When the war is over dispose of the bonds and pay the mortgage. Possibly you may have to sacrifice to buy bonds? The boys 'over there' are sacrificing their all—even life itself. And the farmers will do their full part, never fear. The thing to do right now is to figure out the proposition and be ready to answer promptly, 'HERE!'"

Understood in Country.

Those who are in close touch with farm thought assert that the farmers have been making arrangements for weeks to become heavy purchasers of the Fourth Liberty Bonds. The nature and the value of these bonds are now fully as well understood in the country as in the city. The soundness of the investment is questioned in no community, but the farmer has not made up his mind to buy them because of the investment feature but because he is convinced that it is the American and patriotic thing to do, and buy he will to the limit of his ability.

While the farmer, like almost every other group of workers, feels that he has certain grievances that ought to be adjusted, he is not lagging in support of the war. County organizations have been kept intact since the close of the Third Loan, and in most communities it has been pretty well decided just how much each man in the neighborhood should be able to take of the Fourth Loan.

CHANGING LIBERTY BONDS

First Issues May Be Exchanged for Third Bonds Up to November 9.

The privilege of conversion which arose in consequence of the issue of 1 per cent bonds of the Third Liberty Loan will expire on November 9 next and under existing law cannot be extended or renewed.

Policy in exercising the privilege will result in overburdening the banking institutions of the country and the Treasury Department by making it necessary to handle all conversions at the last moment and may result in many cases in the loss of the privilege of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them for registered bonds in order to protect themselves against the risk of loss, theft and destruction of their bonds.

The banks throughout the country, as a matter of patriotic service, will doubtless all assist bondholders in converting and registering their bonds.

If you do not have music in your home, you have no foundation on which so many other vital things must rest. Get ALL music, as well as the best in literature, on the Victrola. Roark county distributor, has placed more than 250 instruments in the country, and his easy terms will enable anyone to own a machine.

Job printing at this office.

Good Roads Meeting

The annual meeting of the Kentucky Highway Engineers' Association, formerly the County Road Engineers' Association of Kentucky will be held at Owensboro, Kentucky, on November 12th, 13th and 14th, 1918.

Previous meetings have always been held in February but the officers of the association decided to change the date of meeting for two reasons:

First, on account of bad weather conditions it has always been almost impossible to inspect the roads. We feel that opportunity should be given all the members to see roads during the good weather so that we all may learn more of what constitutes a good road. Past meetings have not been of the greatest benefit because inspection trips could not be arranged.

Second, a radical change has been made in the program. Instead of the usual speeches indoors it is planned to have all speaking done outdoors. The speech on "Gravel Roads" will be delivered right on a gravel road. The speech on "Macadam Roads" will be delivered right on that kind of a road and a history of that particular road will be given. All members will be driven in automobiles to the various roads. The members will be told how to build concrete bridges and a small bridge will be built while the speaker explains how the concrete should be mixed and how the steel should be placed. The various methods of repairing roads will be explained while the Daviess County teams and machines actually do the work.

Daviess County has all kinds of roads from gravel to macadam rock asphalt and brick within easy reach of Owensboro.

The county owns and operates the most complete road building outfit in the State. Sixty head of mules, several rollers, many graders, etc. An exhibition of all this outfit at work will be given.

It is planned to make the meeting the most practical and beneficial gathering ever held by the road builders of Kentucky. It is difficult at any time to build good roads and in war times the best methods must be used or nothing of value can be accomplished when labor and materials are so difficult to secure.

The City of Owensboro and Daviess County will entertain all visitors royally and no pains will be spared to make the visit pleasant as well as valuable. Members of the Association are urged to bring as many friends of Good Roads to the meeting as possible.

J. W. Spurrier, County Road Engineer of Daviess County, President, R. C. Heath, Road Engineer, Department of Public Roads, Secretary and Treasurer.

Hon. John Feland, one of the best known attorneys in this section died at his home in Hopkinsville last Sunday.

Victrola And Records Free to Some School.

The J. L. Roark Estate, county distributors of Victrolas and records, has offered a Victrola and twenty selections in records to the rural school showing the highest percentage in attendance this school year. There are quite a number of schools in the county using the Victrola, and more teachers are planning to do so. If any district buys a machine, and later it develops wins the prize, the amount paid will be refunded, up to the amount offered, but schools which have heretofore secured a machine will not be permitted to compete. Getting the pupils to attend school is one of the greatest needs of the day, and it is thought this prize will make the teachers even more active than they have been along this line. No town or village school are allowed to compete, the offer being confined to rural schools, and as the award is to be made on a percentage basis, the smallest district in the county has an equal chance with the larger. The announcement was made to the teachers at justly recently, and was received with enthusiasm.

Now while we are winning is the time to buy more Liberty Bonds, and thus hasten our victory.

Featuring the line of "Best Goods" all hair mattresses at Roark's. Finest line of goods ever carried in this section, and the cheapest, for you will give perfect satisfaction for an ordinary lifetime. Pillows of same material.

What is home without a Liberty Bond?

City Ordinances.

The Council of the City of Greenville do ordain as follows: That the license to sell fresh meats by retail in the City of Greenville in quantities of less than one quarter, shall be \$10.00 per annum, and any person, firm or corporation so selling same without first having procured license so to do, shall be fined the sum \$5.00 for each offense, upon conviction thereof, and each sale shall constitute a separate offense.

Adopted Oct. 7, 1918.
Orlen L. Roark, C. W. Roark, Mayor.

The Council of the City of Greenville do ordain as follows: The license of any person to act as Auctioneer for the sale in the limits of the City shall be \$5.00 per annum. Any person who shall sell at public auction any property in the City, except upon order of Court, without first procuring such license, shall be fined upon conviction thereof the sum of \$10.00 and each sale shall be a separate offense. This ordinance shall not repeal the ordinances against Peddlers and street Vender, and no license shall be issued to a non-resident of the City, and this license shall not authorize the sale of property owned by non-residents of the City.

Adopted Oct. 7, 1918
Orlen L. Roark, C. W. Roark, Mayor.

Good morning! Have you bought your Fourth Liberty Loan bonds yet?

Caruso has sung "Over There" for a Victor record, and has thus added to what is already considered the most popular of our new war songs. Geo. M. Cohan was paid \$25,000 for the song, submitted in a contest.

After you have mastered the formula, remarks one of them, it is not difficult to be a four minute man. The formula is to begin your speech with your conclusion.

Full line oatmeal paper, all colors just received at Roark's.

Call for Volunteer Mechanics.

Call for volunteer mechanics for the service and attend to your instruction in auto mechanics, motor cycle repairs and radio operators. It is open to selected men from 19 to 36 years old, and until Saturday, October 12. Local Exemption Board.

Trade with Roark, who teaches your dollars to have more cents.

Real Patriots Do Something.

It is very easy now to know who are the patriots. The country is in war, and needs help. Many people who have always talked about their patriotism, and could half way get away with it, heretofore, as nothing was demanded of them in times of peace, are now being shown in their true, miserable light, for they have not bought a stamp, a bond, or contributed to the Red Cross, Y. M. C. A. or any of the war necessities. The people who have maintained these branches rarely ever mention it, or brag about their love of the government, quietly taking their share of responsibility with out any noise. And feeling is now at the point where the other fellows are not going to be permitted to do any blowing, for people are not going to stand for it any longer.

The tones on a Victrola spring and mingle as on no other instrument. The light weight on the needle does away with the gritty, grabby, scratchy noise so manifest on all other machines, and insures the supreme delights of music, song and story. See and hear at Roark's.

Home And Lot For Sale.

6-room house, 2 1-2 acres land, 2 wells and cisterns, barn and out-buildings, on W. Main cross street, for sale. Also a lot of mill slabs, delivered in town, at \$1.50 per load.

J. N. Clemmons.

Message to Music Lovers.

It is a brave man who will try to dispute the verdict of Galli-Curci, Heifetz, Caruso, McCormack, Farrar, and scores of other supreme judges. This verdict is that the Victrola is far superior to all other instruments, and the only one worthy of recording their art. Secure a Victrola now, and enjoy the enrapture of the greatest singers and playing organizations of the whole world, right in your home. Call at Roark's and see the Victrola and live demonstrations.

Eugene Layton Casto.

Our community was saddened last Saturday night when a message was received from Camp Zachary Taylor, Louisville, that Prof. E. L. Casto had died at the camp hospital at 6 o'clock, from pneumonia following an attack of influenza. His condition had been serious several days before, but had improved, and his death was a shock to our people. Last June, after the closing of our High School, of which he had been superintendent for two years, Prof. Casto volunteered as an Army Y. M. C. A. secretary, and had proven a most valuable man in this service. His death is unfortunate, as he had a most promising future. His body was shipped to his home in Millwood, W. Va., where burial was made. He had a host of friends and admirers here, who mourn his passing.

Victrolas stay sold, and give the buyer no trouble. See Roark and arrange for one.

We will pay a straight salary of \$35.00 per week for man with rig to introduce Eureka Egg Producer. Six months contract. Write quick, Eureka Mfg. Co. East St. Louis, Ill.

Notice call for volunteer mechanics, and act at once, if you wish this service.

Muhlenberg's allotment of Liberty Bonds was raised to \$555,000, so buck up, mister. For we must make it, just the same, and will.

Everybody pays the same price for the Victrola, while no two persons pay the same amount for other machines. Buy the machine of recognized, superior qualities from Roark.

When The Boys Come Back.

"When these men (American soldiers and sailors) come back they will become the real rulers of the nation. Let there be no mistake about that. And when they do come back and march down the streets of your city I hope no man who has not given his money and made his sacrifices as they have made theirs will be permitted to profane that parade by looking at it."—Josephus, Secretary of the Navy.

See the Sheriff and pay your taxes if you want to save the penalty.

Water in the lake is again at the danger point, and householders are anxious over the possibility of the supply being cut off.

Used Machines For Sale.

Roark has a number of used sewing machines of different makes, taken in exchange for the White rotary, which will be sold very cheap. These machines have all been overhauled, are in good condition, and should be seen.

Even if you have bought Liberty Bonds in the three preceding campaigns, buy more now, for we must have money to keep fighting.

Notice to Drafted Men.

On and after October 8th., 1918, all cases coming before the District Exemption Board, Division No. 2, Western District, at Madisonville, Kentucky, either for classification or on motion to reopen will be heard and tried only on affidavits filed with the Board. No witnesses, unless summoned by the Board, will be allowed to appear before the Board either in person or by attorney after said date.

Sept. 24th., 1918.
Wm. H. Yost, Chairman.

"Our soldiers are giving their utmost efforts, and sacrificing their lives in this war we are winning, and all the help we can give should be extended quickly, so buy Liberty Bonds."

Announcement.

Select your Victrola for Christmas now. We planned months ago so that you may have assurance of an instrument if you arrange now for it. Stocks are low, all over the country, as the demand has increased vastly over any previous period, and with scarcity of labor and lessened material supply at the factory, the usual shortage of Victrolas at holiday times will be more acute this year than heretofore. Select your instrument and have delivery made when you wish.

The J. L. Roark Estate.

Our boys are winning, so keep them going with Liberty Bonds you buy.

Wake Up, America.

For a long while we have claimed for ourselves the position of the leading nation of the world, and we are undoubtedly the richest. But riches is not the highest mark of greatness. Right now our love of freedom is at test, and the opportunity to lend our money to our government will prove us as nothing else can. To show just what we are doing and what others have done we should every one remember that France recently floated her eighth loan of six billions, all of them of equal amount, and she did the job in just one day. If our sister Republic, with all it has suffered and lost, can do this splendid act, it surely would be little in us to fail, in a longer period, to raise our smaller aggregate amount, while our largest single allotment. While the outlook is not as bright as it should be, there is no doubt our bonds will be oversubscribed, but thousands of names which should be on the honor roll will not be there at all.

Do your Christmas shopping early. Roark has already sold two Victrolas for holiday remembrances.

Good morning! Paid your taxes yet?

Be loyal to Old Glory—Buy Liberty Bonds.

Call at the Simmons shop and see the new styles in fall hats.

TRADE IN OUR COUNTRY
Merchants of Greenville are wide-awake and seeking increased business. Trade with them in confident assurance of best goods at lowest prices.

Liberty Train Draws Large Crowd

There was a large crowd drawn from a wide area last Thursday by the visit of the Liberty Loan train, bringing a branch of Sousa's band and a bunch of inspiring speakers. The train arrived here at 2:45 in the afternoon, and a fleet of automobiles brought up all who desired. The band reported at once at the court house and gave a concert of an hour. At night speakers addressed listeners in the building and also an overflow audience from the front steps, and the evening was a notable one.

Many new records can now be found at Roark's, in Victor shipments of the week.

Gasoline Saving Disappointing.

The gasless Sundays are not producing the savings contemplated, making the situation very serious, and newspaper reports indicate that an order will likely be issued stopping the sale of any gas to pleasure cars, and placing trucks on a card system. This was contemplated in the beginning, but it was hoped the shortage could be overcome by a gasless Sunday. The observance here is getting lax, and there were more cars in evidence last Sunday than even on the first day.

October and November promise to be the big months in holiday buying, as the Government is asking the public to do this, and wise merchants know that early buyers will not only get best selections, but that late shoppers will not be able to get anything, in many lines, on account of the limited supply of merchandise.

Hallowe'en is the next special date.

"Rody" To Sing In France.

Homer Rodeheaver has gone to teach Pershing's boys how to sing "Brighten the Corner Where You Are." Escorting his celebrated old trombone, wearing the Y. M. C. A. uniform, Billy Sunday's chorus master will be a soldier song leader for the duration of the war. "Rody" is to specialize in the one song he made especially famous, but plans to dispense other, non-evangelistic successes, such as "The Last Long Mile" and "Good Morning Mr. Zip Zip Zip!"

Bought for one, enjoyed by all—that's the Victrola.

The "Victrola Book of the Opera," new, revised and enlarged edition, just out, can be had at Roark's at the old price, \$1. Every talking machine owner should have a copy, which has history, stories and scores of 120 operas, 700 illustrations and information which can be found in no other one volume, in its 553 pages.

Golden Star furniture polish, best made, at Roark's.

Aged Man Passes

Samuel Taylor, in his 82nd year died at the home of his daughter, Mrs. Robert E. Frazier, at Powderly at 7:30 o'clock last Thursday morning, from ailments incident to his extreme age. For about a year he had made his home here, and had made a host of friends. The body was carried to Walton, and laid to rest in the family lot. Mr. and Mrs. Frazier are joined by the friends in the sorrow this death has brought.

A home without music is lacking in brightness, cheer and comforts. Whatever your needs, let Roark help you. Most complete line of instruments in this section, and qualities highest.

Mrs. Joseph Elkins was cut and bruised last Saturday when she fell from a train at Central City. She thought the train had stopped, but it was moving slowly, and when she stepped off was thrown. Her injuries are painful but not serious.

Soldier Boy Dies at Camp.

Monroe Hill, 23, died at noon Sunday in Camp Taylor hospital, from an attack of influenza. He had been at camp several months, and was making an enviable record in his work, and his death has caused deepest grief among his many friends in his own neighborhood and throughout the county. He was a son of Mrs. John Ed Smith, of the Friendship neighborhood. The body was shipped here, arriving yesterday at noon, and interment was made in the cemetery at Friendship church. A large crowd was in attendance.

Use a Cleanrite brush on your Victrola, getting better results and protecting your records.

Boggess-Wiseman Wedding

Miss Iris Boggess, of this city, and Mr. Edgar G. Wiseman, of Rossville, Ill., were married at Madisonville at 2:30 o'clock last Saturday afternoon, in the presence of a few friends. The announcement was a pleasing surprise to the many friends of Miss Boggess throughout the county, but it has developed that there was an acquaintance of many years back of the romance, and this is the happy culmination. Miss Boggess has for some years been doing splendid work as county demonstrator in domestic science branches, and has greatly endeared herself to all our people, everywhere. Mr. Wiseman has been in business in his home city, but has disposed of same, and while his plans are not settled, it is likely they will live here for a time at least.

The Victrola, at home and abroad outsells any instrument, many times over, and comparisons will plainly show you why. Roark will gladly demonstrate.

Weather For Week.

The Weather predictions for the week beginning Monday, issued by the Weather Bureau are:—Ohio Valley and Tennessee—Generally fair, with temperatures above normal.

No matter what sort of talking machine you have, you can exchange it for a Victrola, and Roark will give you fullest allowance.

Small rooms can be papered at half, from Roark's remnants.

Good morning! Still buying W. S. S?

A hair mattress lasts a lifetime, and gives greatest service. Get one from Roark.

This has been called the Fighting Loan in Liberty Bonds, and we will win as our boys are winning.

Germany has been declaring for some time they have their "backs against the wall." They still have, but it is against a wall of steel, and they are now facing their native land.

We can give much, for we have yet given little in this world war, in comparison with our allies.

E. N. Martin does altering, repairing, cleaning and pressing. Have him care for your clothes.

Our soldiers in France, Belgium and Germany are putting it up to us this way: "If the folks at home hold out, we will win this war."

Ex-Gov. James B. McCreary, one of the most prominent figures in Kentucky, died at his home in Richmond at an early hour Tuesday morning, after a brief illness.

In view of conditions which now exist, and with the outlook for better not in the least encouraging, so far as output is concerned, you should arrange at once with Roark for your Victrola, for it is a sure thing that the demand will continue to increase.

The Government is calling for prune pits. So far as we are concerned they may have the whole thing.

Let E. N. Martin help you save by putting and keeping your clothes in good condition, and save you the expense of high priced outfits now.

Cars can be used on Sunday for Liberty Loan service, as a special order has been issued by the Fuel Administrator to that effect.

Buy a Victrola now, and save the 10 per cent. war tax. Roark has a large supply of instruments just now, and invites your visits.

Are you partner with the boys fighting in France, Belgium and Germany? Then buy bonds to help them on their way.

Latest millinery for young and old at Simmons shop.

Thirty boys and girls from the J. C. O. F. Orphans' Home at Lexington, were here last Saturday night, and gave an excellent concert of hand and orchestral music to a crowd which packed the court house and filled the square. A voluntary contribution yielded about \$175. Several stirring talks were made and the evening was a great one.

Of course it is up to all of us to give, to help win this war, but some of us will not even lend our money for this glorious cause.

Forward!

With no thought of bursting shrapnel and poisonous gases into which they plunge--with every muscle tense, with every faculty of mind alert, with one thought only--TO FIGHT AND WIN.

That is the way our men are going into battle. When the shrill whistle sounds the advance, out they go--their whole heart in the task before them. No power on earth can 'd them back.

Forward!

The same sharp challenge to battle is sounding for us. We must answer in the same proud way--the way of our fighting men--the American way. *We must lend the way they fight.*

We must show the war-maddened hun a united American people moving forward shoulder to shoulder, irresistibly, to Victory.

Our task is to supply the money, the ships, the guns, the shells that we must have to win. It is a tremendous task. We must do our part as our fighting men do theirs--with the indomitable spirit of Victory.

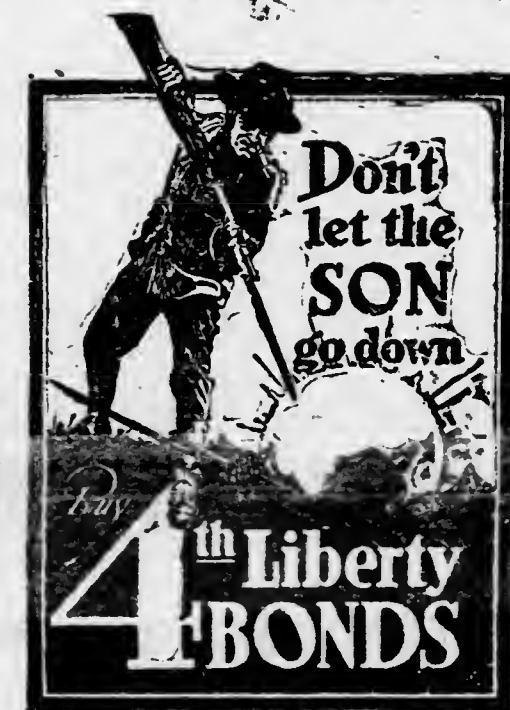

We must work, and save, and lend with one thought only--TO FIGHT AND WIN.

FANCIED GRIEVANCE CAUSE LABOR LOSS OF MILLION MEN

FEDERAL EMPLOYMENT HEAD
URGES WORKERS TO TAKE
PERSONAL VIEW OF SIT-
UATION.

SHOULD AVOID SHIFTING JOBS

Permanency of Employment Would
Add to Success of Fourth
Liberty Loan.

At least 1,000,000 workers through-
out the United States change employ-
ment at least once a week because of
petty personal prejudices, according
to J. N. Breen, assistant director
United States Employment Service of
the State of Missouri. The effort of
the employment bureau, in order to
conserve the labor supply throughout
the country, will be to persuade the
laborers to forego any prejudice and
remain at their work.

"Every week not less than 1,000,000
workers fail to show up for work be-
cause of a grudge against somebody or
something," said Breen, discussing the
labor situation. "When the workers
can be impressed with the fact that
their remaining at work, and not
leaving because of imagined dislike or
injustice, it means that 1,000,000 pos-
sible labor forces will be added to labor
to take the place of the same number
that are now inefficient and only
partly useful.

"Concentration of the energies of
these will more than double the ca-
pacity of the same workers. There
are at least that number who do not
realize that their concerted efforts
will be a large contributing factor to
a successful conclusion of the war."

Assistant Director Breen also called
attention to the fact that hundreds of
thousands of men take needless days
off. By a hard driving force, he de-
clares that it will be of great assist-
ance to all branches of industry.

The officials and labor leaders point
out that the times are unusual, and
demand that each worker must make
unusual responses to the govern-
ment's necessities.

Where a worker quits because of
some fancied grievance, he is unem-
ployed for some days, when he could
just as well have been at work.

Where he is dissatisfied with condi-
tions, the employee also does not
work as efficiently as where he makes
himself satisfied with conditions.

There is no doubt in the minds of
labor officials that the vast majority
of workers already have speeded up
to the maximum, and they, conse-
quently, are exempting these from
their calculations.

The speeding up of the individual
worker means just that much more
capital that can be invested in the
Fourth Liberty Loan Bonds, which
will be placed on the market Septem-
ber 23. By just that much saved to
day when there is plenty to do means
that it will be just that much easier
as the individual workers grows older
and is less able to work.

HOLD TO LIBERTY BONDS

When Anyone Seeks to Buy Them
Proposition Should Be In-
vestigated.

The effort to separate Liberty Bond
holders not familiar with stock and
bond values from a their Liberty Bonds
has taken a new turn. The manipu-
lators, instead of offering to buy the
bonds at inadequate prices, offer in ex-
change for them the stocks and bonds
of various wildcat corporations, whose
face value is large, but whose actual
value is little or nothing.

The safest investment in the world
is a Liberty Bond. For a patriotic
American, Liberty Bonds are the best
investment in the world. It is not only
a wise thing to hold them, it is a
patriotic thing to do. The soldier that
takes a trench and then voluntarily
gives it up is not to be compared with
one who takes a trench and holds it
against the enemy.

And American who buys a Liberty
Bond and then sells it is not so good
an American as one who buys a bond
and holds it. This does not apply,
however, to one who sells his bond be-
cause of real necessity. Here is legiti-
mate trading in Liberty Bonds which
the treasury recognizes.

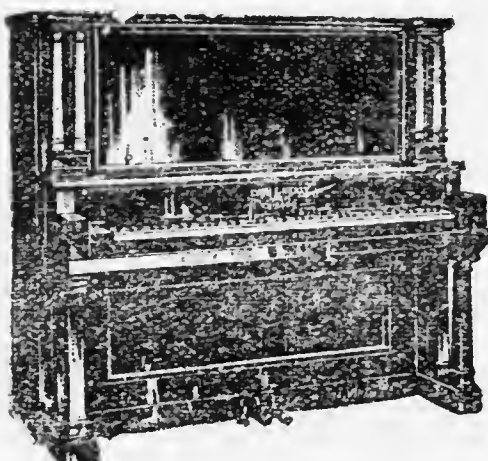

BUY A BOND

By H. V. Neal, Everett, Mass.
Mark, a voice to you appealing,
Men of Freedom, Thought and Feel-
ing,
Innocents explore you kneeling,
"Buy a Bond."

Hosts of Hell are right defying,
Sparing not the sick or dying;
Broken hearts to you are crying,
"Buy a Bond."

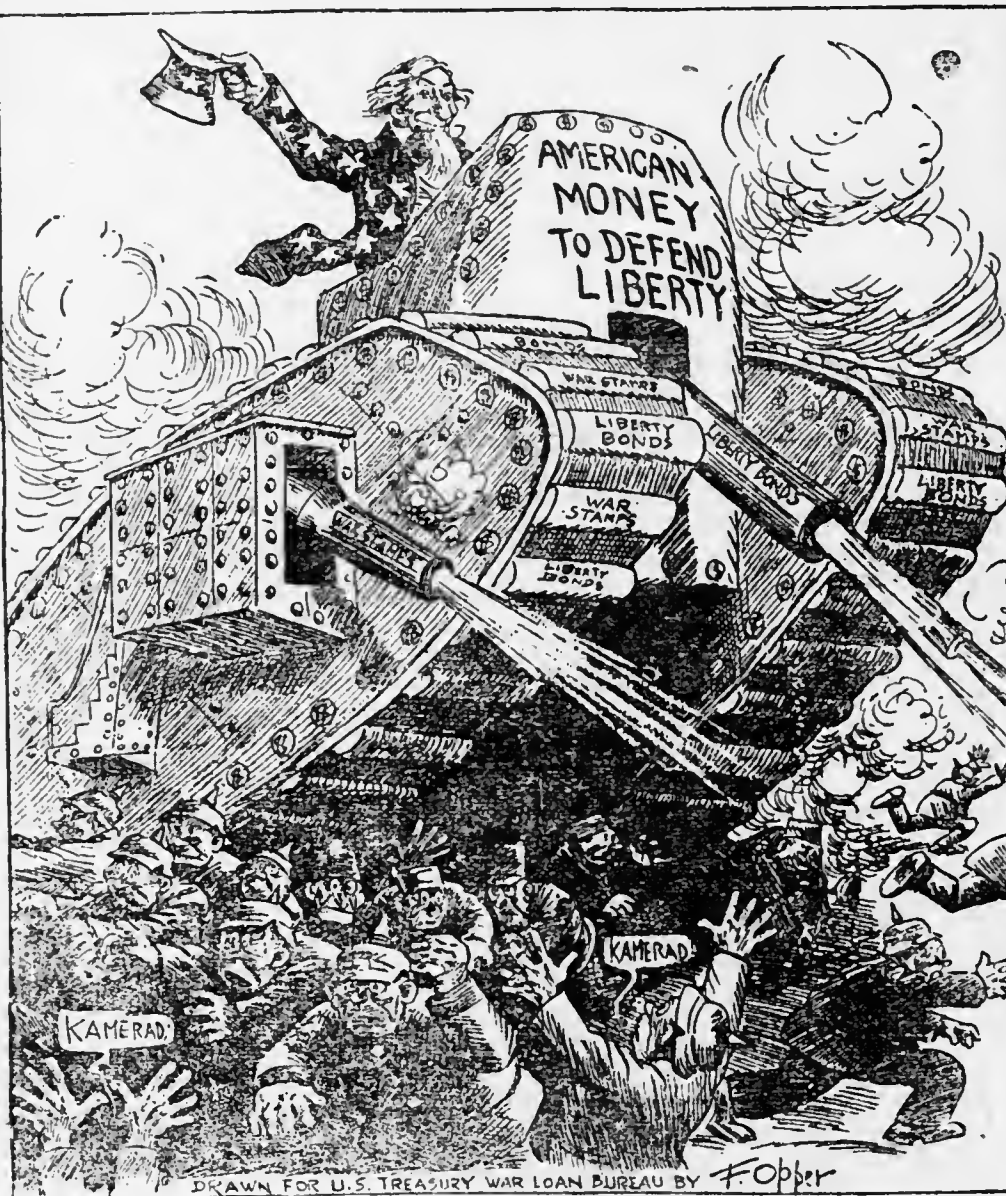

For our boys who, in the fight,
Stand for U. S., God and Right,
Keep their home fires burning bright,
Buy a Bond.

In the name of Liberty,
Strike the blow to make men free,
Help to win the Victory,
Buy a Bond.

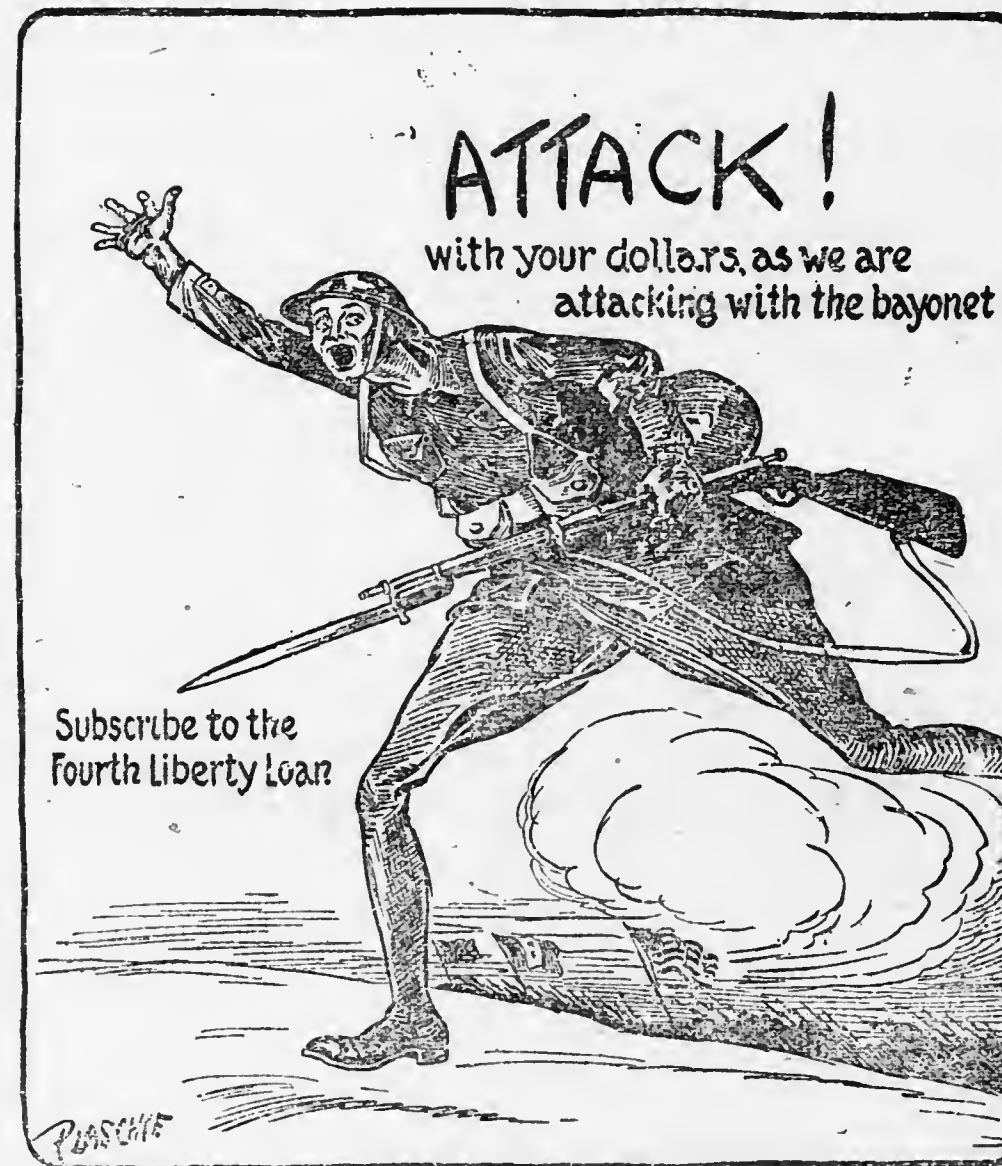

Look, Greenville, Ky.

STYLE XVI VICTROLA, \$225

The Aristocrat of the Victor Family

Its very appearance suggest culture and refinements
—the kind of instrument you are proud to have in

your home—to have your friends see—
that brings you prestige and their re-
spect.

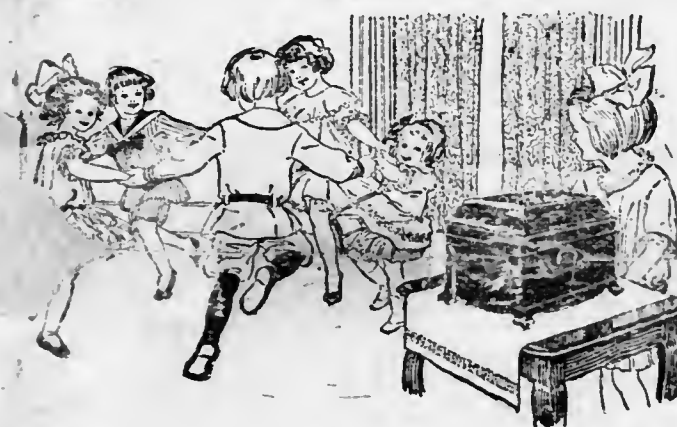

To appreciate its individuality and won-
derful tone reproducing qualities it must
be seen and heard in comparison with
all other models. Artistic—made from
choiciest woods—beautifully finished—

it enters the finest homes to delight and entertain. To
own one is to know complete satisfaction.

VICTROLAS, RECORDS, CABINETS, SUPPLIES

The J. L. ROARK ESTATE
GREENVILLE, KENTUCKY

Why children need the Victrola

It's a playmate to them. Keeps them out of
mischief. Plays for them to dance or romp—or sings
and tells them stories.

But it gives something greater than amusement.
A Victrola in the home helps shape the spiritual and
mental growth of children, helps form their charac-
ters and tastes, helps educate them. And it's a great
help to every mother!

Is there a Victrola in your home? You may think you can't afford one, but
we'll show you that you can. You'll say you never heard of more generous terms
than ours. Victrolas \$15 to \$100. Come in today and hear yours.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved
After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia
Higginbotham, of this town, says: "At
my age, which is 65, the liver does
not act so well as when young. A few
years ago, my stomach was all out of
fix. I was constipated, my liver
didn't act. My digestion was bad, and
it took so little to upset me. My ap-
petite was gone. I was very weak...
I decided I would give Black-
Draught a thorough trial as I knew it
was highly recommended for this
trouble. I began taking it. I felt
better after a few doses. My appetite
improved and I became stronger. My
bowels acted naturally and the least
trouble was soon righted with a few
doses of Black-Draught."

Seventy years of successful use has
made Theodor's Black-Draught a
standard, household remedy. Every
member of every family, at times,
need the help that Black-Draught can
give in cleansing the system and re-
lieving the troubles that come from
constipation, indigestion, lazy liver,
etc. You cannot keep well unless your
stomach, liver and bowels are in good
working order. Keep them that way.
Try Black-Draught. It acts promptly,
gently and in a natural way. If you
feel sluggish, take a dose tonight.
You will feel fresh tomorrow. Price
25c. a package—One cent a dose.
All druggists. J. 63
